

Coronavirus Information

Hello Everyone,

In response to the public health concerns about the COVID-19 (coronavirus) pandemic, Diamond is closely monitoring the situation as it relates to the health and safety of our valued clients and employees. We are open for business, fully staffed, and operating as normal.

At this stage, the best thing we can do to prevent the spread of the virus is to take proactive measures. Social distancing is a public-health measure that seeks more physical separation between individuals and discourages large gatherings. These measures of “social distancing” are important not only for our clients and employees, but to do everything we can to slow the spread of infection in order to serve the public good.

Effective today, Diamond will limit onsite client visits to critical response issues. Diamond Technologies is digitally equipped to service clients remotely via teleconference, video chats and screen sharing for most tickets. On a case by case basis, and with the cooperation of our customers and the Diamond team, we will evaluate exceptions as appropriate.

If you have any questions or concerns, please feel free to contact us. Thank you.

-Diamond Technologies
